

Hiking suggestion 1

Klösterli – Scheidegg – Unterstetten - Felsenweg

We begin our hike just above the Rigi-Klösterli rail station. The pathway ascends through a small wood which very soon clears to reveal alpine pastures and a view of the valley below in the direction of Goldau, Rossberg and Mythen. Over the gently ascending hiking path, part of which is roadway, still following along the north side of the mountain, we reach the district of „Obermatt“. For the remainder of our journey to Rigi-Scheidegg we follow the former rail tracks of the Rigi-Scheidegg railroad. Walking time approximately 2 hours.

The return journey, following the former rail track to Rigi-First, is a superb hill-walking experience. Below the Würzenstock we leave the rail track and walk over the Felsenweg

(pathway cut into the rock) to Rigi-First. A steep descent brings us in a very short time back to the Rigi-Klösterli. Walking time approximately 2 hours.
