

Hiking suggestion 3

Staffel – Känzeli - Kaltbad - Klösterli

From the RIMONA holiday house we climb over „Des Alpes“ almost 300 m upwards to the Rigi-Staffel, where we take the first break. When visibility is good, the eastern Alps can also be seen from here. Following an almost flat pathway along the Staffel crest, followed by a descent, we reach the breathtaking vantage point of the Rigi-Känzeli. From here one can enjoy a view of the city of Luzern, the Bürgenstock and the Vierwaldstättersee. A well-tended path brings us through a romantic nature park to the Rigi-Spielpark (playpark) with its childrens' playground, campfire areas, Kneipp-Baths, Mini-golf course and Felsenkapelle (chapel cut into the rock-face) down to Rigi-Kaltbad. Once again we follow the old Scheidegg-Rail path to climb towards Rigi-First. Two variations are once more available: The first takes us from First on a steep descent directly to the Klösterli, the second offers us a romantic and beautiful pathway built in the rock to bring us around the mountain back to the Rigi-Klösterli.

Walking time is approximately 3 Hours.
