

Hiking suggestion 4

Fruttli - Dächli - Kräbel - Scheidegg - Unterstetten

From the RIMONA Holiday House we walk towards the valley on the small roadway to Fruttli station. On passing the station, keeping left, we follow the rail tracks for a short distance to the mountain path. This path brings us down into the Rigi-Aa gorge. Past the bridge we walk further towards the valley. Approximately 1 hour 15 minutes later we arrive at the Rigi-Dächli restaurant. After an optional halt we walk on, over the old Rigi-Pilgerweg (Pilgrims' way) in the direction of Goldau. Approximately 15 minutes walk below the Rigi-Dächli the path veers off to the right in the direction of Kräbel. We walk through a lightly wooded area and reach the cable car to Rigi-Scheidegg. (Total walking time 2 Hours).

We ride in the cable car up to Rigi-Scheidegg where we are rewarded for any feelings of discomfort during the cable car journey by the breathtaking 360° panoramic view. We walk upwards in a south westerly direction to the Scheidegg restaurant which boasts a superb playground and campfire directly behind it. Our journey continues after a lunch break. We cross the old railroad and follow the lake path towards

Unterstetten. The path is initially downhill, later uphill. There are opportunities in several places here to picnic or build a fire. The path by the Unterstetten restaurant brings us under the old railway bridge and downwards towards Klösterli. Walking time from Scheidegg is (at most) 2 hours over the Lake path.
